                    PAGE CACHEABILITY ATTRIBUTES.

1.      This office action is responsive to amendment filed on 12/01/2005. Claims 1-3, 6-12, 14-16, 20-25 and 27-28 are now allowed. Claims 4-5, 13, 17-19 and 26 have been canceled.

REASONS FOR ALLOWANCE

2.      The following is an Examiner's Statement of Reasons for Allowance:

        The prior arts of record do not teach nor suggest, *either alone or in combination*, all the limitations of the claimed invention (claims 1, 9, 20 and 23). Pedneau ('074) is the closest prior art cited by the Examiner, wherein Pedneau discloses mechanism for storing system level attributes in a translation lookaside buffer. Pedneau does not teach or suggest entering a candidate entry into a translation lookaside buffer and generating an exception, also to perform fix-up operation to

conform a second cacheability bit with a first cacheability bit when a mismatch is detected wherein a fix-up operation comprises determining that a mode of execution is aggressive, rolling back to the last commit point in the execution, changing the mode of execution to disallow speculation and repeating the execution without speculation until the execution is triggered again as being recited with all other limitation in claims 1, 9, 20 and 23. In light of the foregoing; claims 1, 9, 20 and 23 of the present invention are found to be patentable over the prior art.

Claims 2-3, 6-8, 10-12, 14-16, 21-22, 24-25 and 27-28 further limit the allowable independent claims 1, 9, 20 and 23. These claims are therefore allowable for the same reason as set forth above.

Any comments considered necessary by Applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
